

Number Pattern:

Print the following pattern for n number of rows.

Sample Input 1 :

4

Sample Output 1 :

1 1

12 21

123 321

12344321

Read input as specified in the question.

Print output as specified in the question.

```
n = int(input())
```

```
i=1
```

```
while i <= n:
```

```
    j=1
```

```
    while j <= i:
```

```
        print(j,end="")
```

```
        j = j + 1
```

```
    sp = 1
```

```
    while sp <= 2*(n - i):
```

```
        print(' ',end="")
```

```
        sp = sp + 1
```

```
    p = i
```

```
    j = 1
```

```
    while j <= i:
```

```
        print(p,end=" ")
```

```
        p = p - 1
```

```
        j = j + 1
```

```
    print()
```

```
    i=i+1
```

5

1 1

12 21

123 321

1234 4321

1234554321
